Essay Questions

44. (p. 49-50) How can an organization improve ethical behavior?

Understanding how people choose their ethical standards and what prompts them to engage in unethical behavior may reverse the current trend toward unethical behavior in business. Establishing and enforcing ethical standards and policies within a business can reduce unethical behavior by describing which activities are acceptable and which are not and removing the opportunity to act unethically. Codes of ethics and training programs can help the business create a corporate culture that encourages ethical behavior.

Essay Questions

55. (p. 52) What are the four dimensions of social responsibility?

Economic, legal, ethical, and voluntary concerns represent the four dimensions of social responsibility. Earning profits is the foundation of these dimensions and complying with the law is the next step. A business whose sole objective is to maximize profits is not likely to consider its social responsibility, although its activities will probably be legal. Voluntary responsibilities are additional activities that may not be required, but they promote human welfare or goodwill.

Essay Questions

76. (p. 58-62) Discuss the environmental issues managers must confront in dealing with social responsibility issues.

Managers today must consider the consequences of their actions on the environment as a part of their social responsibility. One area of concern is the controversial business practice of animal testing for cosmetics and drugs. Business practices that harm endangered wildlife and their habitats are another environmental issue. Businesses must also be concerned with their contributions to air, water, and land pollution as a result of their operations. In response to these concerns, many firms are trying to eliminate wasteful practices, the emission of pollutants, and/or the use of harmful chemicals from their manufacturing processes.
