## Engineered Wood Products

Attn: General Manager

Subject: Deposit for roof trusses & metal joists  
for Swank house & shop

I am writing to let you know how satisfied I am with your customer service and technical support. I phoned Selkirk asking for a quote on my project. I emailed Dan Legris that evening with the drawings and had an email before lunch the next day with the quote. In addition, Dan was able to deal with my technical questions & get me additional information on the metal joist systems.

I must say it was the high level of service & support that I received from Dan, that was instrumental in my decision to give you my business.

I did have other options closer to Grand Forks.

Thanks again for enclosing a cheque for 30% of the job.

Sincerely, Dan

Selkirk Truss would like to congratulate our Design Manager

## DAN LEGRIS

on his efforts to introduce our new Posi-Strut Floor Joist systems to our existing, as well as new customer base.

Please call Dan and let him help you with any of the engineered wood products you need for your next building project!

Zellstoff Celgar is looking for landowners with 2 or more acres within 55 km of Castlegar that would benefit from using Biosolids as soil amendment. Pastures and hay fields are good options.

Zellstoff Celgar will cover the costs of the consultant to perform soil sampling, obtaining government authorization and delivery costs of the fresh Biosolids based on access with a large truck/pup combination. Acreage should be able to accommodate at least 6 truck/pup loads.

The landowner is responsible for spreading and incorporating the Biosolids into their soil.

# Like Puzzles?

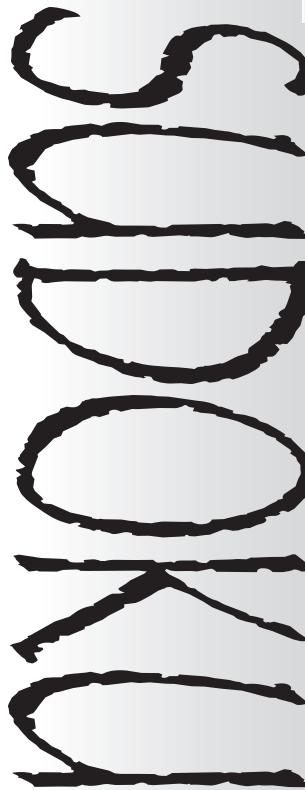

Then you'll love sudoku. This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test!

Level: Intermediate

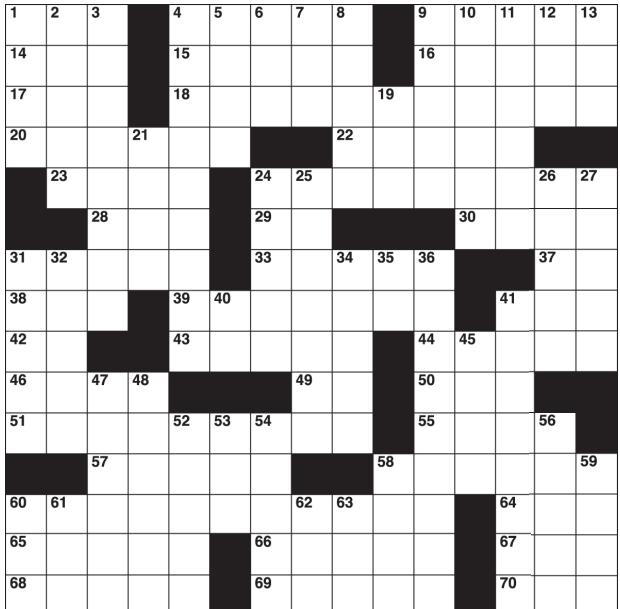

## Here's how it works:

Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

**And The Winner Is?**

The 3rd West Kootenay-Boundary Junior Dragons Den business competition, took place April 21 at the Charles Bailey Theatre in Trail. The event saw 14 youth businesses from Grand Forks to Nakusp, vying for dominance as they pitched their wares to a panel of local dragons (aka **THE JUDGES**) in front of a live audience.

Competing in three different divisions, Junior (Grades eight to ten), Senior (Grades 11 and 12) and College/University, competitors had two minutes to pitch to the judges, following the airing of a short promotional video which had been produced for the competition, highlighting their business or business concept. "This year's regional championship was very fast paced and all competitors did very well," stated Don Freschi, GM at CFDC Greater Trail. "And although we had some minor technical issues, which were quickly resolved, all competitors rose to the challenge, representing themselves, their businesses, communities and schools flawlessly."

The West Kootenay Boundary competition is now one of three regional qualifying competitions, all of which ladder into the Kootenay wide Junior Dragons Den championship, which takes place May 7, back at the Charles Bailey Theatre, as part of Trail's Silver City Days celebration.

**Robson Firefighters Win  
Award For Being Smart**

The Robson Volunteer Fire Department has received a National Wildfire Community Preparedness Day award for its efforts to make its community safer from wildfire. The fire department will host a community cleanup day on Saturday, May 7 to mitigate the risks of wildfire.

"We hope to have a great turn out and hope to build more momentum in the coming years," says Jeff Grant, Robson's fire chief.

"I am so proud of our fire department," said Rick Smith, Electoral Area J director.

Echoing Smith's sentiment is Andrew Bellerby, the RDCK's regional fire chief "The Robson team is taking a proactive approach to educate, cleanup and protect their community. They demonstrate that firefighters not only respond to fires, they also work to prevent them."

The award comes with a \$500 prize, which will be used to host the event on May 7.

*When people ask about our tire changeovers we answer by stating what we do that most others don't.*

First of all: When you have your tires changed over by us you are getting an experienced journeyman technician performing the task. This ensures that the work is completed by a highly competent technician. After all, it is your tires and wheels... Do you want them coming off while you're driving?

**Our added value includes:**

- Balancing: Tires will go out of balance after usage. Balancing extends the life expectancy of your suspension & shocks.
- A visual brake inspection. We do this to make sure your vehicle will stop when you need it to.
  - Torque the wheels to the correct specifications
  - Your tire pressures are adjusted to vehicle and seasonal conditions
  - We road test your vehicle for smoothness of ride and to check for any abnormal noises
  - After the road test your wheel nuts are re-torqued
- A third re-torque at your convenience

**Thorough,  
Quality  
Service  
Guaranteed!**
