Another Winning Show In Rossland

Joe Hill Coffee House, Rossland's community venue for talent from near and far, has a great show for you on Sunday, May 15 in the Rossland Legion hall, doors open at 6 pm, show at 7 pm. It's only \$3, kids and students free – the best entertainment value for many a kilometer. Eight seasons and going strong!

The line up includes...

- Steve Rathwell – our itinerant troubadour
- Greg and Danielle – sweet sounds all together
- Wayne Saluti – always intriguing
- Christopher Page – a Joe Hill debut by a fine guitarist
- Dawn Graham – the famous voice singing classic jazz
- Kiana Tingley – Rossland's up and coming singer/songwriter/guitarist
- Les Carter – an eclectic bag of songs with a difference

Joe Hill Coffee House is in the Rossland Legion, 2081 Washington Street until the Miners' Hall renovations are completed. It's the same traditional family friendly format – coffee, tea, goodies, nice tables and chairs, cozy surroundings and good sound (no bar.) See you there!

Joe Hill Coffee House is always looking for new performers – young and old, beginners or polished. All welcome; no auditions. It's where you can relax and perform for the best audience anywhere. For more information, contact Les Carter at retrac01@telus.net, 250-362-5677.

Call For Artists And Venues!

NELSON ARTWALK 2016: Nelson and District Arts Council presents the 28th Annual Art Walk event!

ArtWalk has drawn locals and visitors downtown to experience the wonderful work of our visual artists for 28 years! Truly a Nelson family summer activity.

Opening night activities will be held at businesses and venues throughout Nelson on Friday, July 1 from 6 pm to 9:30 pm. With ArtWalk running until Friday, August 26.

Applications for ArtWalk 2016: If you are an artist or a venue interested in participating in this year's ArtWalk, please email or visit www.ndac.ca to download an application form. Application deadline is Friday, May 20.

Mail or email completed forms to Nelson and District Arts Council, PO Box 422 Nelson, BC V1L 5R2 or info@ndac.ca

Submitted by Sydney Black

7 Reasons why your business needs a website.

7 Reasons PWwebsites should build it.

#7: Cost Effective Marketing

Want full colour? Have lots to say? Imagine advertising that just costs you your time? Having a website makes it entirely possible. Your traditional ads will push response to your website, where you can change your specials every day if you want.

#6: Measurable Marketing

Using analytical tools, you can find out exactly how many visitors have come to your website in a day - week, month or year... how long they spent there, and which services or products they were interested in.

#5: Increased Coverage

If you are a small business, you advertise small and rely on foot-traffic and referrals for your business. With a website, possible customers from anywhere can find your business. There are many tools to help your business grow through your website.

#4: Accessibility

Your website works for you 24-7 with no labor costs. Market your business while you sleep. A contact form on your site allows readers to reach you at their convenience. Today, potential business is lost to other companies with detailed and easy to use eye-catching websites.

#3: Credibility

Have you ever searched the Internet for a company, and couldn't find them? They become non-players when the competition shows up instead. Your traditional advertising, if seen regularly, will create an image of being trustworthy and dependable - important qualities on the web.

#2: High Grade Customer Service

Most of your clients will have the same set of questions and concerns. By focusing your website on those answers you can reduce customer service costs and save yourself time and money.

#1: Customer Convenience

Your customers can shop at their leisure. There's no pressure to buy, nor do they have to drive over to your place of business to find out about your products. Let your website win them over by giving them the information they need to want to purchase from you.

#7: Cost Effective Marketing

PWwebsites builds attractive and functional websites for small businesses at very reasonable rates. We share our years of marketing experience and enjoy helping clients become knowledgeable as they implement their multi-platform marketing plans.

#6: Measurable Marketing

The effectiveness of traditional marketing is difficult to measure. Multi-platform marketing can be set up to track and target specific audiences.

#5: Increased Coverage

Once your brand new website is up and running, we'll announce your site in a classified ad. Like any new service or new product, if you don't advertise it, nobody will know you've got it. We'll cover the West Kootenay for you and help you start building your "dependable and trustworthy" website image.

#4: Accessibility

We are easily accessed during the work week and though we aren't open 24/7 - we do check our emails on the weekends. If you are having a nasty issue we will help solve it as soon as we possibly can.

#3: Credibility

Pennywise has been serving the West Kootenay since 1975. You can depend on us to do what we say we are going to do.

#2: High Grade Customer Service

We take customer service seriously. You can bank on the long established, dependable and trustworthy reputation of the Pennywise. We will be here when you need us.

#1: Customer Convenience

Check out our website pwwebsites.com. If you are considering a new website, or want to refresh your current website... if you can't find your webmaster and need some changes.... we are here. We've proven we are dependable and we'd love to share our knowledge with you. There is nothing more satisfying than seeing our customers succeed in their businesses.

MS Walk – Wendi's Story

Wendi Thomson lives in Nelson. She was diagnosed with MS in 2003 and in 2004 she had a big flare-up, where she went from running 5 kilometres to barely able to go a block assisted by a cane. She could not manage buttons, her husband had to help her do her hair and she was pretty scared until the relapse passed. Relapses continued for her until about two years ago. Now she doesn't remit. She has a permanent limp and her right hand doesn't fully function. Wendi says, "I have not accepted this as my new reality yet and I am trying very hard to work my way out of this."

Wendi has participated in the MS Walk since before she was diagnosed. She used to jog the route, now her family walks or runs on her behalf. Of the MS Walk she says "Every step really does matter and in the last decade I have watched closely as we really do get that much closer to a cure, but just as important – there are things being accomplished that help those of us living with this crazy disease enjoy a better standard of living. Coping ideas, support, finding balance and knowing you are not alone."

The MS Society of Canada will host their annual MS Walk in Nelson on Sunday, May 15. Funds raised at the MS Walk are dedicated to supporting groundbreaking, Canadian led research as well as helping Canadians with MS live better until a cure is found. Through Wendi's inspirational story, we hope to show people that every step matters in the fight to end MS. For more information about the MS Walk and the MS Society, please visit www.mswalks.ca

**ZELLSTOFF
CELGAR**

Would Your Acreage Benefit From Soil Amendment?

Zellstoff Celgar is looking for landowners with 2 or more acres within 55 km of Castlegar that would benefit from using Biosolids as soil amendment. Pastures and hay fields are good options.

Zellstoff Celgar will cover the costs of the consultant to perform soil sampling, obtaining government authorization and delivery costs of the fresh Biosolids based on access with a large truck/pup combination. Acreage should be able to accommodate at least 6 truck/pup loads.

The landowner is responsible for spreading and incorporating the Biosolids into their soil.

REGIONAL DISTRICT OF CENTRAL KOOTENAY

Community Meeting on Responsible Dog Ownership Area H

**CRESCENT VALLEY COMMUNITY HALL
THURSDAY, MAY 19 7– 9 PM**

The RDCK is hosting an educational community meeting for residents of Area H to assist the community in understanding their rights and responsibilities, current regulations and information on how to handle an incident with an aggressive dog. Presentations will be made by RDCK, RCMP and the SPCA. The meeting will be facilitated and there will be a question and answer period after the presentations. Please join us for the discussion and help us make the area a great place to live.

West Kootenay Traffic

The West Kootenay Traffic Services/Nelson IRSU have seen an increase in excessive speed on the roadway. We all are enjoying the early spring and the roads are very clean and clear, but this does not mean you should increase your speed. We still have wildlife, bicyclists, pedestrians and tourists using our roads.

In the last week, we have stopped and seized 13 vehicles for seven days for exceeding the posted speed limit by 40 km/hr. These speeds have occurred by drivers in the morning travelling to work and in the early afternoon and evening.

If you are travelling in excess of 40 km/hr, you can be charged for excessive speed with a fine of \$368 and points. If in excess of more than 60 km/hr, a fine of \$483, plus points. In addition to the fine, your car will be seized for seven days (costing you storage and a tow bill). If your excessive speed leads to a crash, your insurance depending on circumstances can be compromised.

With the nice weather comes fast driving, and we are warning the public to obey the speed laws. We are out there watching and no tolerance will be allowed for excessive speed.

We want the Kootenay Boundary area to be the safest in the province and so far we are – please help us keep it that way.

Submitted by John Ferguson

Wali is a 10 month old Akbash cross that was surrendered because his home wasn't a good match. Wali needs to go to a home that has knowledge of the breed as he would do best in a farm environment where he has a job and companionship. Wali does have separation anxiety and loves being with people. Wali would love to have a family that is active, and he does well on a leash. He does well with dogs but would require an introduction. If you would like to meet Wali, or would like more information, come to the Trail Regional BCSPCA 250-368-5910

Then you'll love sudoku. This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test!

					9			
7								4
5	1	6	4	3				9
	7	1					8	
		4			3		5	7
	9	5	8		7	4	1	2
	4	8		9	1	7	3	
							4	
1	6		7	2	4		9	

Here's how it works:

Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

WHEN YOU HAVE SOMETHING YOU NEED TO MOVE, RENT OR SELL, harness the power of the press with an ad in the classifieds. It's the most effective and inexpensive way to get the word out to thousands of interested parties right in your local area. Call 1-800-663-4619 today!

Physician Assisted Death Discussion

Now that it is here, what do we do? Please join us as we host a panel representing professionals in appropriate fields, assembled to discuss and answer questions pertaining to legislation concerning physician assisted death.

Panelists include Dr. Zinia Pritchard, Dr. Marnie Jacobson, Tammy McLean NP and Don Sperry.

Sponsored by The Royal Canadian Legion, Branch #11, at 2141 Columbia Avenue, Trail on Wednesday, May 18 at 7 pm. Doors open at 6:30 pm.

Admission by donation to the Greater Trail Hospice Society please.

Be Prepared In Case of Emergency

The Two 'F' Words – With the possibility of floods and fires in our region, the RDCK wants the public to be as prepared as possible in case of emergency. Residents are encouraged to assemble *Grab n' Go Kits*, which help to prepare individuals and families for emergencies.

View details of *Grab n' Go Kits* at this link:

www.tinyurl.com/j4hnjvc

"Everyone should have such a kit, in case a fire, flood or other event occurs," advises Andrew Bellerby, Regional Fire Chief with the RDCK. "Ideally, have one in your car and in your home. Make sure everyone in your household knows where the kits are. And don't forget about pets and livestock in case they need to be evacuated one day."

Another helpful tool is the FireSmart Homeowner's Manual which outlines measures residents can take to reduce wildfire hazards. The manual can be found online at www.bcwildfire.ca/prevention/docs/homeowner-firesmart.pdf

For more information on emergency preparedness, please visit the RDCK website at this link www.tinyurl.com/jryp6wf

For further information, please contact Andrew Bellerby general manager of Fire and Emergency Services/Regional Fire Chief, 250-352-1507.

Think Before You Burn

Although fire bans have not yet been imposed in the region, residents are urged to use extreme caution if they decide to have open fires given the unseasonably warm and dry weather.

"Fires can have devastating impacts upon communities; the mass evacuations and destruction in Fort McMurray are a sober and prime example," says Andrew Bellerby, Regional Fire Chief for the RDCK. "Please don't burn unless absolutely necessary and if you still insist on having a fire, make sure you have plenty of extinguishing devices available."

Never, ever leave a fire unattended or toss out cigarette butts. Those residents who insist on having open fires are asked to keep the following points in mind:

- The type of material to be burned (only burn organics – no plastics, toxins, etc.)
- The size of the area to be burned
- Wind direction and strength
- Establish fuel/fire breaks and guards
- Have fire suppression (sprinklers, hoses)
- Make sure the fire is monitored at ALL times
- Ensure that the fire is extinguished
- If a fire spreads beyond control, contact your local fire department immediately

For information on wildfires and restrictions visit the following link:

www.tinyurl.com/h3zgrhr

For information on backyard burning, visit:

www.tinyurl.com/hzpv7qy or www.tinyurl.com/j99fnc6

For further information, please contact Andrew Bellerby, general manager of Fire and Emergency Services/Regional Fire Chief, 250-551-2641.

Smell rotten eggs? It could be natural gas.

We add that distinct sulphur scent to natural gas so it's easier to tell if there's a leak. If you smell natural gas, stop what you're doing, go outside and call our 24-hour Emergency Line at **1-800-663-9911** or **911**.

For more information, visit fortisbc.com/safetypartners.

Our partners:

What Is Your Tick And Lyme Disease IQ?

Ticks are part of the Arachnid family and they feed on mammals, birds, reptiles and amphibians. When the outdoor temperatures reach 4°C, in early spring or on warmer days in the colder season, you shouldn't be surprised to see ticks active and looking for a host to crawl onto to take a blood meal. But make no mistake, just because you don't see them, doesn't mean they aren't feeding on your pet. The immature stages can be the size of a pin head!

Climate change, environmental impacts like reforestation, the expansion of host animals and bird migration are contributing to the geographical expansion of ticks. Throughout Canada, several tick species have been identified with varying geographical distribution. The ticks that pose the greatest health risks to our pets are the Eastern black-legged tick (also called the Deer tick), the American dog tick and the Brown dog tick.

Tick-borne diseases represent a growing health hazard for both pets and people. Ticks can transmit Lyme disease and many other pathogens that may cause debilitating disease and even death. Initial tick attachment and feeding of at least 24 - 48 hours is required before transmission of many tick-borne pathogens can occur.

Lyme disease, caused by the bacteria *Borrelia burgdorferi*, is primarily transmitted by the Deer tick (*Ixodes scapularis*). In dogs, symptoms can include fever, lethargy, enlarged lymph nodes, arthritis and renal disease. Your veterinarian can make a diagnosis and treatment recommendations for Lyme disease based on a history of a bite from a Deer tick, clinical signs and blood testing. It's important to be vigilant about tick prevention and be an advocate for your pet!

Pet owners should speak with their veterinary health care team and implement a Comprehensive Tick Control Program:

- Have your pet tested for tick-borne diseases
- Administer a tick control medication
- Consider a Lyme vaccination in endemic areas
- Avoid tick habitats and remove tall grasses and leaves
- Check your pets daily for ticks
- Use a tick remover or fine pointed tweezers to remove ticks. Need help removing a tick from your pet? Contact your veterinarian!

Discovery's Andrew Younghusband At Kaslo May Days!

With hits like *Daily Planet*, *Gold Rush* and *Highway Thru Hell*, Discovery is designed to bring compelling real life television programming that inspires and entertains Canadians! Discovery reveals the world in all its wonder, diversity and amazement and offers a signature mix of adrenaline charged stories, larger than life personalities and vivid imagery for viewers with curious minds. With the best non-fiction programming from

Canada and around the world, Discovery captures the excitement of a passion for life – one lived fully and at its most extreme. With exceptional and immersive storytelling, the channel offers in-depth, behind the scenes glimpses at the extraordinary people and places that shape our world.

And Discovery is coming to Kaslo, BC's May Days! With a new documentary series *Tougher Than It Looks?* planned for later in 2016, Andrew Younghusband, host of *Canada's Worst Driver*, is coming to May Days to see what it really takes to lumberjack.

Discovery fills their channel with shows produced by a number of independent production companies bent in the same direction – they air shows about interesting people, places and activities, with factual shows on topics such as science, nature, adventure and technology. One of these independent production companies, Proper Television, approached the May Days Committee to work out details to film an episode for their new series *Tougher Than It Looks?* where Andrew Younghusband tackles wildly different experiences with a comedic eye and a typically Canadian flair!

Proper Television has emerged as one of Canada's strongest and most sought after creators of factual entertainment, bringing a slate of successful and original series to audiences which include *MasterChef Canada*, *Vegas Rat Rods*, *Canada's Worst Driver*, and *Don't Drive Here*.

Andrew Younghusband will be working with some of our local lumberjacks to learn about that passion that brings people from all over the world together, gain some practical experience and benefit from their direction and expertise before competing in one of the competitions on Saturday, May 21 and Sunday, May 22. So bring the family, come on out and cheer him on!

Crime Wave Hits BC Interior

The gang in question consists of a sharp group of novelists, who all make BC their home and crime writing their genre of choice. Kalteis will make the trek from Vancouver with Sam Wiebe (*Invisible Dead*, Random House) and Linda L. Richards (*When Blood Lies*, Orca Books).

On the Kelowna portion of the tour on May 17, they'll be joined by Laurie Carter (*Bear of A Honeymoon*, Emily Carr's BC) as well as Nelson's RM Greenaway (*Cold Girl*, Dundurn Press) and Deryn Collier (*Open Secret*, Simon & Schuster).

The highlight of the tour comes on Wednesday, May 18 at 7:30 pm when Wiebe, Richards, Greenaway, Collier and Kalteis will be featured as part of the Oxygen Art Centre's Art Space Series in Nelson!

With this group, the evening is sure to be engaging, while these veteran scribes read from their latest works and discuss the finer points of writing crime fiction. Questions will be encouraged and the authors will be available post event for signing and discussion. Otter Books will be on hand with books for sale.

Submitted by Deryn Collier

SUVs

1997 BLAZER LT: Black, no rust, good condition, 246,000kms, sunroof, M&S tires, 90%, \$1600obo. 250-608-4025.

2005 BUICK RENDEZVOUS: Auto, V6, pw/pd/ps, brand new all season tires & third row seating, grey color with new custom seat covers, 166,000kms, asking \$4850. 250-355-2632.

2005 CHEVY TRAILBLAZER 4X4: Auto, V6, air, pd/pw/ps, sunroof, brand new all season tires, 250,470kms, asking \$4850. 250-355-2632.

When people ask about our tire changeovers we answer by stating what we do that most others don't.

First of all: When you have your tires changed over by us you are getting an experienced journeyman technician performing the task. This ensures that the work is completed by a highly competent technician. After all, it is your tires and wheels... Do you want them coming off while you're driving?

Our added value includes:

- Balancing: Tires will go out of balance after usage. Balancing extends the life expectancy of your suspension & shocks.
- A visual brake inspection. We do this to make sure your vehicle will stop when you need it to.
- We torque the wheels to the correct specifications.
- Your tire pressures are adjusted to vehicle and seasonal conditions.
- We road test your vehicle for smoothness of ride and to check for any abnormal noises.
- After the road test your wheel nuts are re-torqued.
- A third re-torque at your convenience.

**Thorough,
Quality
Service
Guaranteed!**

Wanted – Great Blue Heron Breeding Sightings

If you have recently seen any heron nest sites, active breeding colonies, or large groups of herons repeatedly gathering and feeding in the area, then the West Kootenay Naturalists' Association wants to know. It is sponsoring a breeding inventory and habitat assessment of Great Blue Herons, with funding from the Columbia Basin Trust and the Fish and Wildlife Compensation Program (FWCP).

The project is being conducted in the East and West Kootenay and North Columbia regions. "We know it has been tough for breeding herons in many parts of the basin; at one rookery near Golden, for example, all of the 25+ active nests were abandoned in 2011 due to suspected eagle harassment and predation. It was a similar story in 2013 at 22+ nests near Parsons," said Marlene Machmer of Pandion Ecological Research Ltd. who is leading the project.

"Nest disturbance, failures and colony abandonment are common. We want to develop an updated and comprehensive picture of heron breeding activity, success and habitat use across the Basin, to be followed up with actions to help this species at-risk."

Sightings reported by the public will be followed-up by Machmer and volunteers across the Basin. These observations will help update heron breeding population estimates and may alert biologists to new breeding and/or overwintering sites that may potentially benefit from habitat protection and/or enhancement.

Heron habitat in the Basin has been significantly impacted by a variety of activities including extensive land development, construction and operation of dams, other human disturbances, as well as Bald Eagle predation.

Anyone with heron sightings to report is encouraged to call 250-505-9978, email mmachmer@netidea.com, or submit their sightings online at www.fwcp.ca.

The FWCP is a partnership between BC Hydro, the Province of BC, Fisheries and Oceans Canada, First Nations and Public Stakeholders, to conserve and enhance fish and wildlife impacted by BC Hydro dams.
